**RuleWatcher**

# RuleWatcher

Collecting the information from governments, parliaments, UN-related organizations, NGOs, initiatives ... etc which shows the way rules and regulations are formed.

The screenshot displays the RuleWatcher website interface. The top navigation bar includes a search icon and the text 'RuleWatcher'. Below this, there are tabs for 'Climate Adaptation [Pro]', 'Stream', 'Calendar', and 'About'. The left sidebar contains a menu with options: 'Find / Create Spaces', 'RuleWatchers', 'Calendar', 'Bookmark', and 'RuleWatcher Pro'. Below the menu, there are sections for 'RULE UPDATE SPACES' (listing Biodiversity [Pro], Climate Mitigation, Corporate Human Rights [Pro], Micro Plastic, Universal Human Rights, Privacy Protection [Enterprise] with a '12' badge, and Climate Adaptation [Pro] with an '80' badge) and 'UNIVERSAL ( WITH TRANSLATION )' (listing Member's self Introduction, Let's talk SDGs, and Voice to Japan Gov from COP26). The main content area shows a stream of news items. The first item is titled 'Seven takeaways from the latest IPCC report' (dated 1 Mar 2022) with tags #EUROPE, #ORG, and #CLIMATE-KIC. The second item is 'IPCC report: Climate change has had a serious impact on nature and people - unevenly distributed' (dated 28 Feb 2022) with tags #FINLAND, #GOV, and #VALTIONEUVOSTO. The third item is identical to the second. Each item includes a small image, a text snippet, and a 'Read more' link.

# RuleWatcher

Focusing on rule-making trends of environmental and human right issues which are cross-border, then, categorizing them.

Social issues we focus (As of 1<sup>st</sup> October, 2022)

- Climate change mitigation
- Climate change adaptation★
- Biodiversity★
- Water resource shortage
- Micro plastic
- Circular economy★
- Universal human rights
- Corporate human rights★
- Beyond capitalism
- Food system

RuleWatcher Pro allows you more analytics.

Theme: Climate Mitigation

Contains: "transition" in the text

Publisher: China (government and Chinese Communist Party)

The original text is in Mandarin Chinese. You can also drill down to read more details.

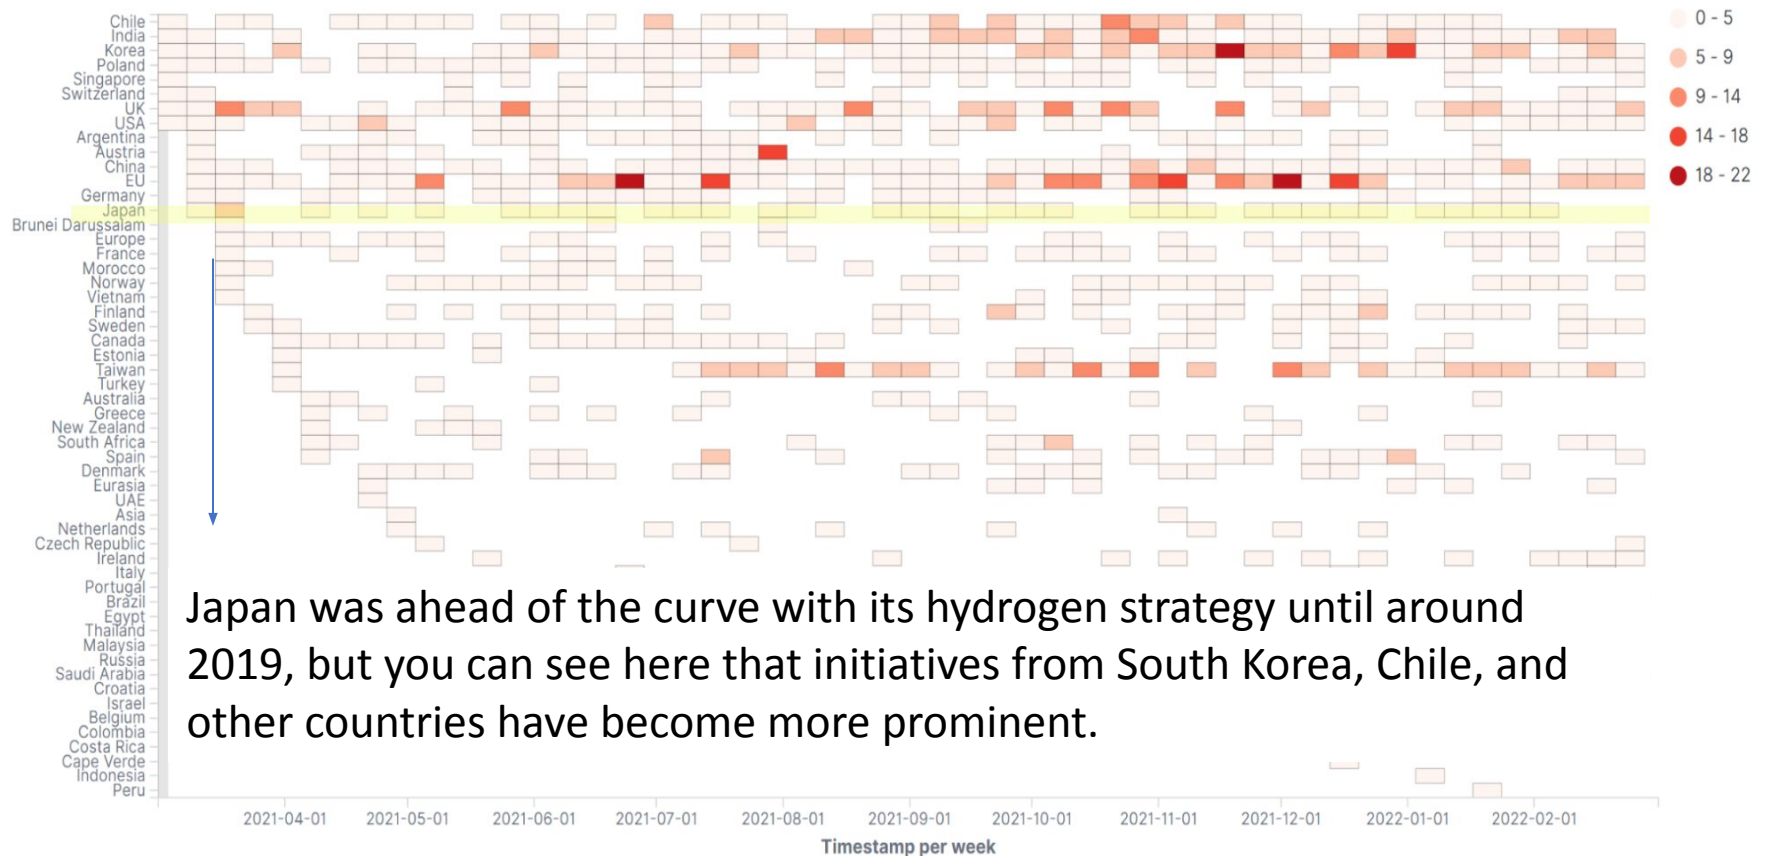

# RuleWatcher

RuleWatcher Pro allows you more analytics.

Theme: Climate Mitigation.

Contains: "hydrogen" in the text

ClimateMitigation : Heatmap(Simple Count)

Japan was ahead of the curve with its hydrogen strategy until around 2019, but you can see here that initiatives from South Korea, Chile, and other countries have become more prominent.
