Special Advantages of AMCON products

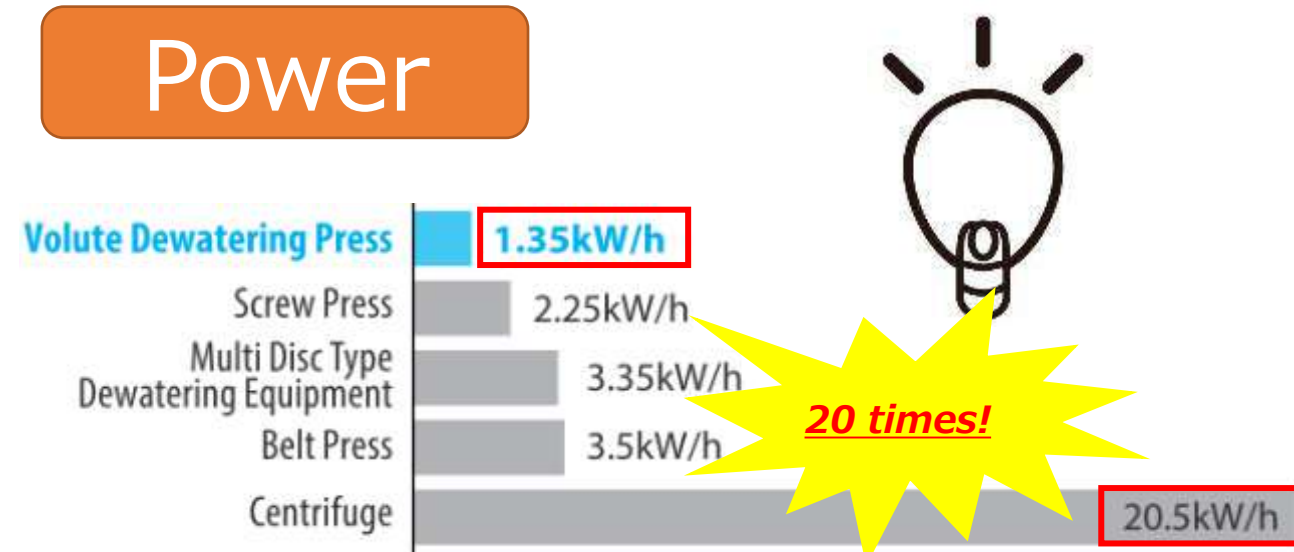

1. Energy Saving Design [Low running Cost - Low consumption of washing water and electricity]

2. Clog-free Structure [Very highly Oil-resident Structure]

2. Clog-free Structure

AMCON's dewatering press is equipped with unique VOLUTE technology, which allows dewatering sludge while automatically self-cleaning the filter mesh. This enables stable and constant dewatering.

Special Advantages of AMCON products

1. Energy Saving Design [Low running Cost - Low consumption of washing water and electricity]

2. Clog-free Structure [Very highly Oil-resistant Structure]

3. Easy Operation [24 h Full Auto Operation Available]

3. Easy Operation

- 2. Clog-free Structure** [Very highly Oil-resident Structure]
- 3. Easy Operation** [24 h Full Auto Operation Available]
- 4. All Built-in / Compact Design** [No Needed Separated Flocculation Tank / Conditioning Tank]

4. All Built-in / Compact Design [No Needed Separated Flocculation Tank / Conditioning Tank]

Flocculation tank, dewatering screw, and operation panel are integrated on the base. It allows rational and compact design.
