

## Heat Island Measures

### Ecothermal Water-Based Insulation Paint

After painting

Energy savings of approx. 15%

## Disaster Countermeasure Products

### Landslide Protection Nets

### Predictive Degradation Sensor

Installed on the protection fence, the sensor communication function enables the **detection of acceleration, rust plating progress speed and tension.**

✓ **THERMBLOCK** is a unique water based **acrylic emulsion hybrid paint** engineered and manufactured in Japan, which provides superior reflective and insulating properties.

Durable		Anti-sweating	
Water Resistant		Sound Insulation	
Safe		Heat Retention	
Highly Adhesive		Stretchable
