

# The *eco* in Garaheco

---

The purpose of Garaheco to people and the environment

# Our Mission

We believe in creating a sustainable, circular economy that contributes to a greener city and a better future. Through our innovative approach, Garaheco is not just a garage, but the Philippines' key player in building a cleaner, more sustainable environment.

# Our Meaning

Inspired by the words "Garahe" and "Eco," Garaheco emphasizes eco-friendliness and positions itself as the go-to End-of-Life Vehicle service, setting it apart from traditional recycling centers and junkyards.

# Our Purpose

**Garaheco is transforming how old vehicles are dismantled in Manila, using advanced Japanese standards and technology to ensure proper dismantling. We lead the market with transparent service and a commitment to eco-friendly, safe, and inclusive practices.**

# How to Garaheco?

Your **Garaheco** Customer Journey in 6 steps!

# Step 1: Appraisal

We appraise the vehicle's current market value based on its condition, salvageable parts, and recyclable materials.

# Step 2: Offer and Agreement

We present a fair offer and upon acceptance, formalize the agreement with complete transparency.

## Step 3: Vehicle Pick-up

We schedule a convenient pick-up, ensuring a smooth, hassle-free collection, while informing the owner about Garaheco's End-of-Life Vehicle dismantling process.

## Step 4: Payment

At pick-up, we make an on-the-spot payment to ensure a quick, efficient transaction with immediate compensation for the end-of-life vehicle.

## Step 5: Vehicle Dismantling and Disposal

At this stage, Garaheco responsibly dismantles the vehicle, identifying parts for reuse or recycling.

## Step 6: Car Retirement Report

Garaheco handles all paperwork with government agencies to ensure legal disposal, providing car owners with documentation confirming the process is completed properly and responsibly.
