Deadline : Tuesday, November 30, 2021

Overview

Recent years, with the accelerating momentum toward achieving the Paris Agreement and the Sustainable Development Goals (SDGs), strengthening environmental conservation efforts has become a global issue. The motivation for environmental conservation measures is also increasing in Vietnam, and the Ministry of the Environment of Japan (MOEJ) and the Ministry of Natural Resources and Environment (MONRE) of the Socialist Republic of Vietnam will be implementing jointly "Viet Nam-Japan Environmental Week" with the aim of promoting and disseminating environmental solutions in Vietnam.

Approximately 1,000 attendees from a very wide range of stakeholder groups including Vietnamese and Japanese governments, intergovernmental organizations, research/academic institutes, NGOs, international/regional organizations and private sector are expected to participate in Seminars and Business Match. In the Exhibition, private companies and other organizations from Japan and Viet Nam will present their technologies as the exhibitor.

*1068 participants (online), Indonesia-Japan Environmental Week, Jan 2021

This event will be holding by two sections. The one is "Environmental Infrastructure Technology Seminar" which will be discussing the latest environmental policies / market trends, needs and seeds related to environmental solutions (environmental technology, etc.), targeting private companies and government officials in both countries. In addition, the Environment Solution PR will be held by the exhibitors in order to present their environmental technology and service to Vietnamese and Japanese governments, intergovernmental organizations and the private companies to seek for business opportunities. The other is "Online Exhibition / Business matching" which will be connecting participants from both countries being interested in environmental solutions and creating opportunities for business negotiations and consultations. We will contribute to Vietnam's environmental conservation efforts through promoting environmental businesses by private companies.

Message

The main theme of Viet Nam-Japan Environmental Week is the promotion of investment and cooperation between government and the private sector.

This is distinguished opportunity to deepen understanding the latest environmental policies / market trends, needs and seeds related to environmental solutions, and introduce your technology/service to Vietnamese and Japanese governments, intergovernmental organizations etc., which leads to expand business chances.

Looking forward to your application!!

*Kindly please be aware in advance that exhibition might be refused if it is judged the application contents are contrary to the purpose of this event.
