

RION CO.,LTD

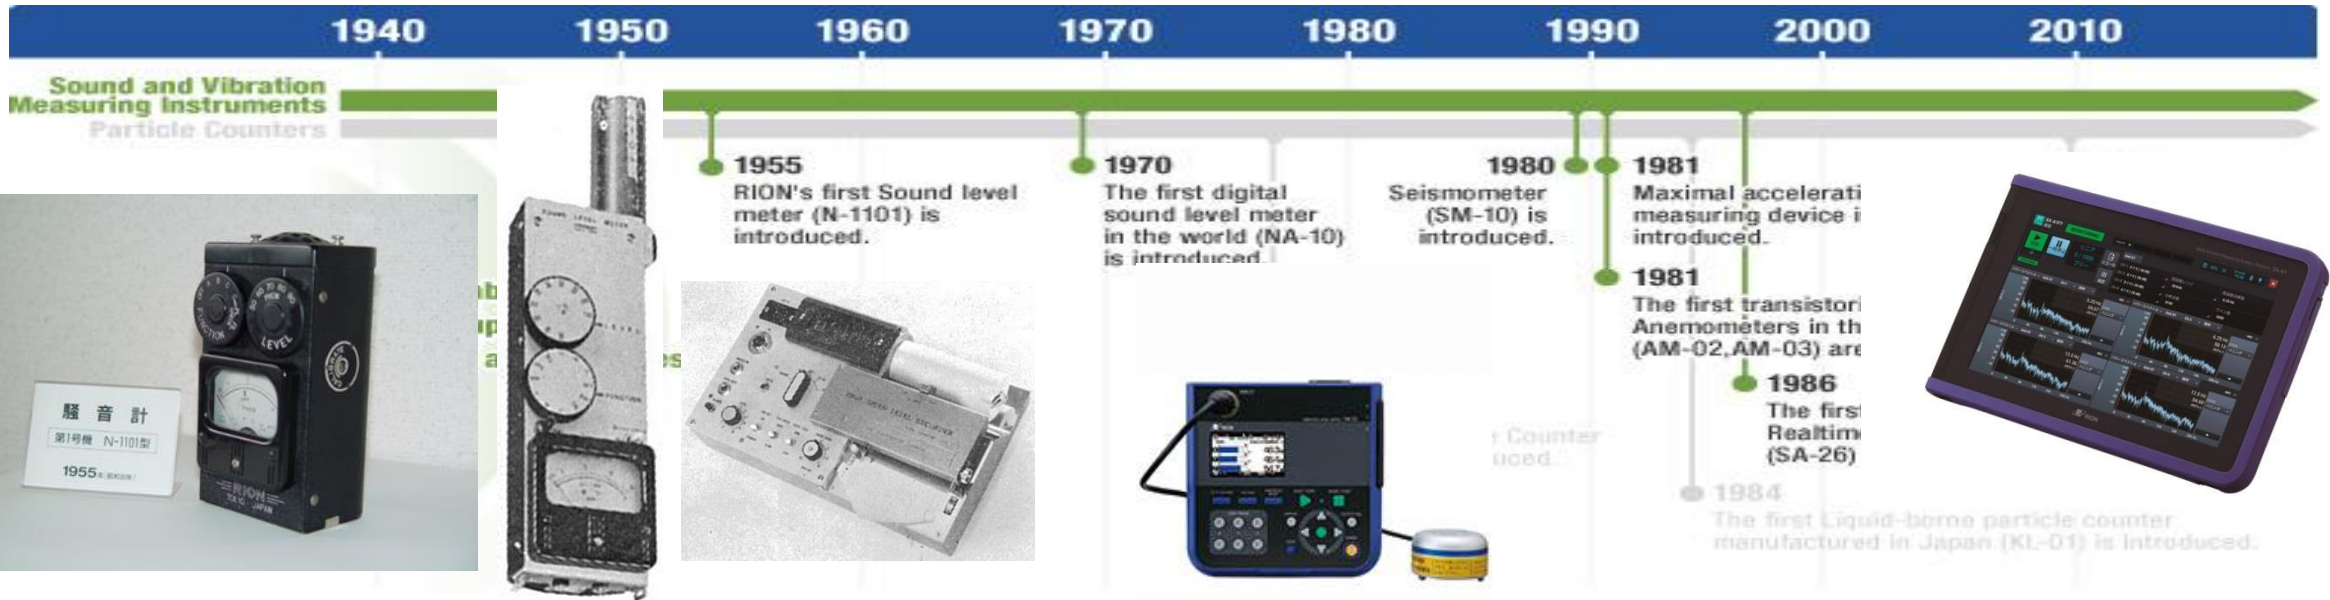

Dedicated to Sound and Vibration Measurement

Founded: 1944

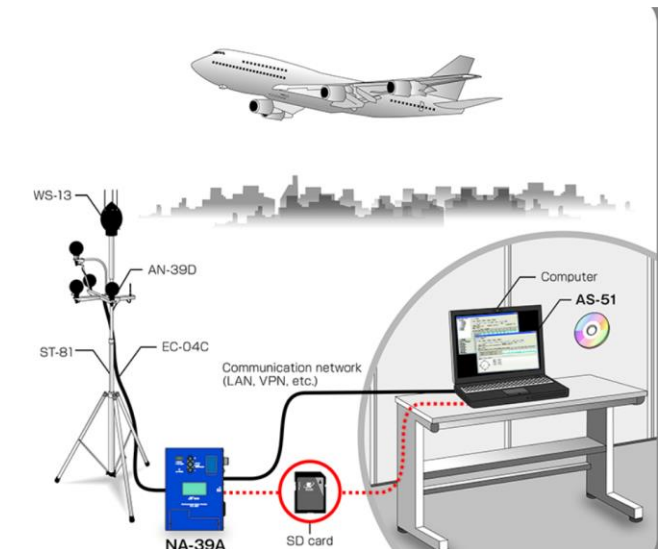

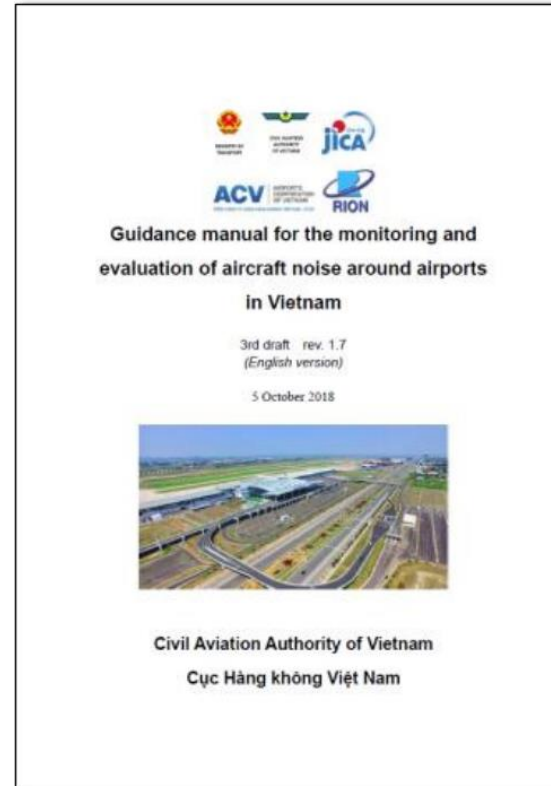

HQ: Tokyo, Japan

“Quality, Rion Promise”

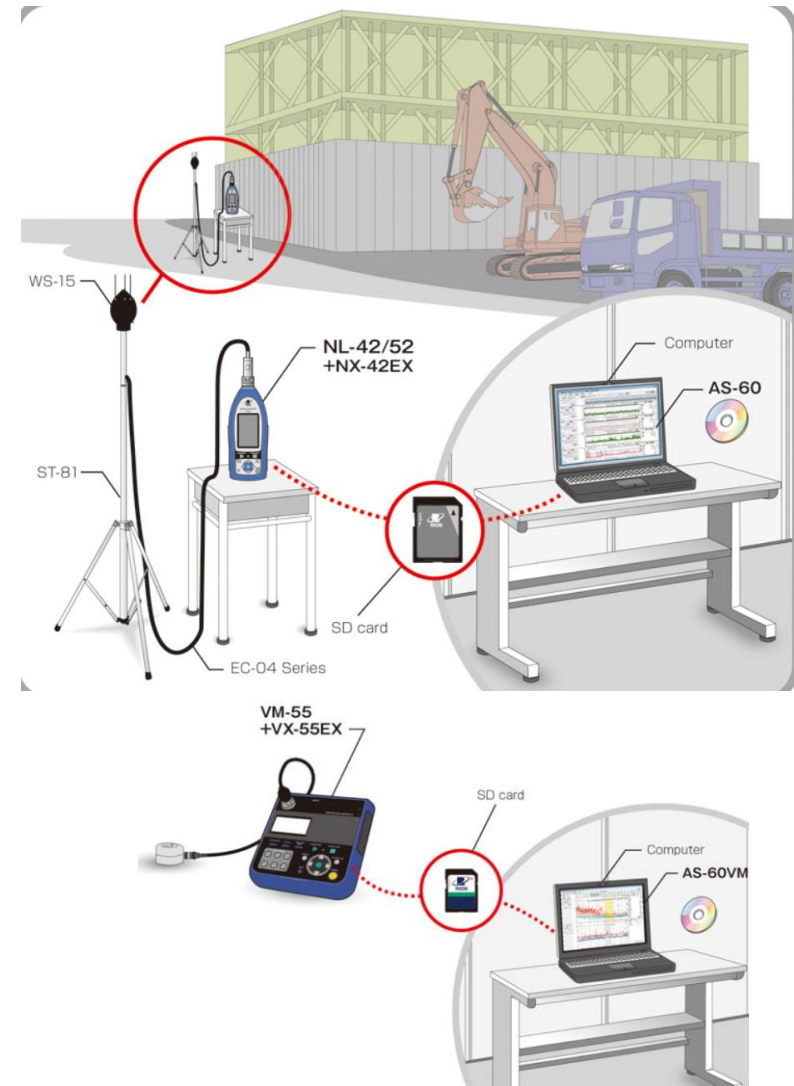

Aircraft Noise Monitoring System

- JICA-CAAV Collaboration Project “**Guidance manual for the monitoring and evaluation of aircraft noise around airports in Vietnam**”
- Plan to increase international airports >> **increase demand for aircraft noise monitoring**
- Rion has installed multiple point monitoring system for aircraft noise in various airports/countries

Monitor Construction Noise and Vibration

- Store **noise and vibration level data** and calculated values on SD card
- With the data management software view level waveforms, edit data and create reports.
- Demand for **online monitoring** system is on the rise>>Rion can provide the latest system

Karaoke Noise Measurement System

On-site measurement device

- Violation status data
- Date/time on photo
- GPS coordinates
- Measured value (LAm_{ax})
