## Energy

77% of GHG emissions in Pasig City is attributed to electricity consumption by residential and industrial spaces. It's time to make bold moves to save energy (and the costs of your bills, too!)

[Pledge Now](#)

## Solid Waste

There are approximately 800,000 citizens in Pasig City each generating waste on a daily basis. Pasig has committed to reducing its waste generation by 20% by 2025. Help the city to reach this goal!
