

Japan Biodiversity Fund

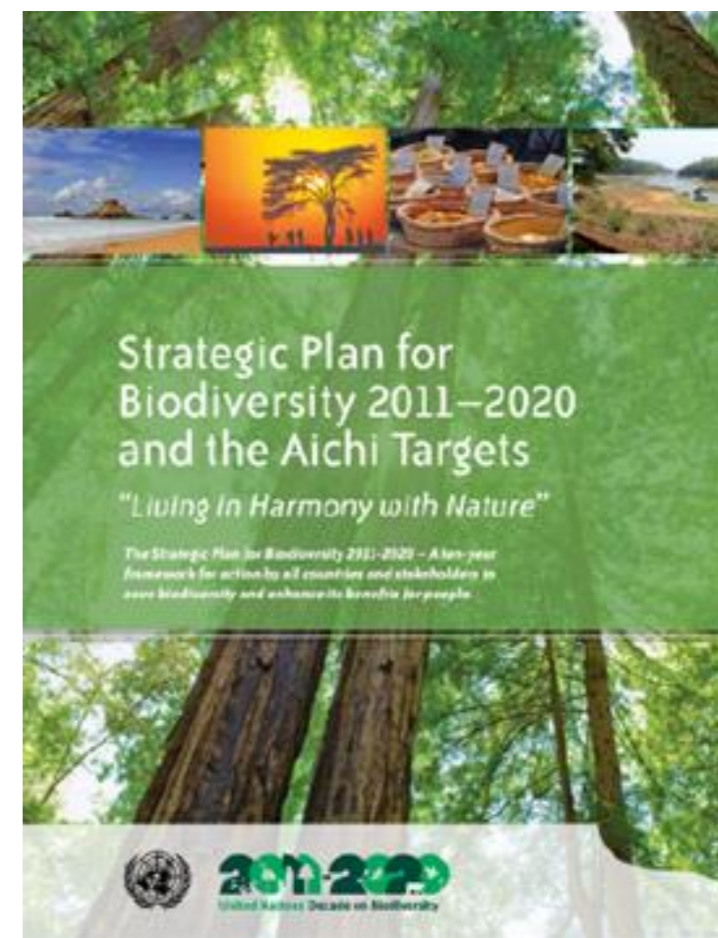

Convention on
Biological Diversity

Yosuke Kuramoto
Secretariat of the Convention on Biological Diversity

24 August 2023

The Japan Biodiversity Fund (JBF) was established by the Government of Japan to support developing countries in implementing the Strategic Plan for Biodiversity 2011-2020 and its Aichi Biodiversity Targets, adopted at COP10 in Nagoya, Japan.

The JBF has facilitated, funded, and supported a wide array of activities, implemented by the Secretariat of the Convention and by external partners, including technical support for NBSAP* development, revision, and implementation.

*NBSAP: National Biodiversity Strategies and Action Plan

The second phase of the JBF was launched in December 2022 at COP15, with emphasis on bridging the gap between the Strategic Plan for Biodiversity 2011-2020 and the Kunming-Montreal Global Biodiversity Framework (GBF).

The second phase of the fund will support developing country Parties to:

- Implement the Kunming-Montreal GBF
- Update and implement their NBSAPs in relation to the Kunming-Montreal GBF
- Strengthen their overall capacity to implement the Convention and its Protocols

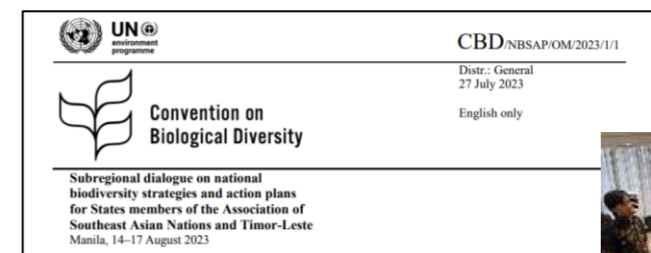

The Secretariat is convening a series of regional and sub-regional dialogues to support the implementation of decisions adopted at COP15.

*Generous funding support is provided from the Government of Japan (through the JBF); the Department of Environment, Food and Rural Affairs of the United Kingdom of Great Britain and Northern Ireland; and the European Union.

Sub-regional Dialogue on NBSAPs for ASEAN member States and Timor Leste

14-17 August, in Manila, Philippines

- Convened in collaboration with the ASEAN Centre for Biodiversity.
- Aimed to facilitate the sharing of experiences and mutual learning related to the revision or updating of NBSAPs.

Towards a world “Living in Harmony with Nature”
