for a sustainable future on our website*

What is JPRSI ?

JPRSI
JAPAN PLATFORM for REDESIGN :
SUSTAINABLE INFRASTRUCTURE

JAPAN PLATFORM for REDESIGN: SUSTAINABLE INFRASTRUCTURE (JPRSI)

provides comprehensive support to environmental businesses between Japan and other countries to improve the environment and contribute to sustainable development.

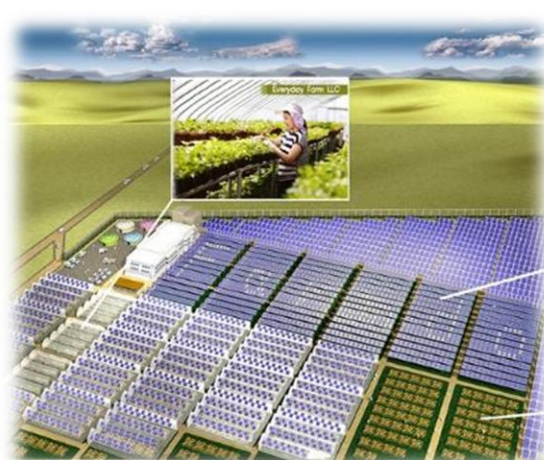

DISCOVER Advanced Technologies

361 environmental infrastructure technologies are registered in JPRSI, including waste-to-energy (WtE) plants, Johkasou (decentralized domestic wastewater treatment system), renewable energy equipment and disaster prevention systems to support adaptation. Please find suitable advanced technologies through the JPRSI website.

CONNECT with Japanese Companies

618 Japanese private companies and public sectors who have various advanced technologies are our members. If you have any questions or interest, you are welcome to contact JPRSI members directly through the JPRSI Member's Online Booth.

Solar System

Waste-to-Energy

Sewage Sludge Treatment

Absorption Chiller

Methanation

*If you have any inquiries,
please contact us freely.*
